South Haven, Minn.

How to Use the Telephone

LOCAL SERVICE

Always obtain the correct telephone number from the directory before you make a call.

If the person you wish to speak to is not listed in the directory, call "Information."

Always speak slowly and clearly when you call a telephone number so that you will not be misunderstood.

Speak directly in the telephone with your lips about an inch from the mouthpiece.

After you have passed your call, listen carefully while the operator repeats it. If she repeats it correctly, say "Right", if she repeats it incorrectly, say "No" and pass the call again.

Do not hang up the receiver until you are through with the connection. When you do you give the operator a signal to disconnect you.

When your telephone is not in use always keep the receiver on the hook; otherwise your line will be out of order.

Answer your calls promptly.

In answering a call, say for example, "Mr. Jones speaking" or "Smith & Co., Jones speaking." This method of answering identifies you and saves time.

To make a long distance call, ask the operator for "Long Distance."

LONG DISTANCE SERVICE

When "Long Distance" answers, give her your telephone number followed by the details of the call.

After giving the details of your call, retain the receiver at your ear until "Long Distance" says, "The operator will call you." Then hang up the receiver and await the completion of the call.

A messenger will be sent to summon the person desired to the telephone, if necessary and feasible, provided you agree to pay the messenger charge.

Charges will be collected at the telephone called if you request this when placing your call, provided the person called agrees to pay the charges.

If the person called is out, word will be left for him to call when he returns, if you so request.

If you desire a report on a delayed long distance call ask "Long Distance."

To obtain the rate to any place, call "Long Distance."

Long distance rates are on a basis of conversations of specified lengths. When conversation extends beyond the specified period, extra charge will be made.

If you wish to be advised of the charges on a message at the close of a conversation, notify "Long Distance" when you pass your call.

Rules and Regulations

Governing Service Furnished by The Telephone Companies Shown in this Directory

The following are the Rules and Regulations governing Subscribers' telephone service furnished by the companies shown in this directory.

Use of Equipment by Subscriber

All telephone equipment furnished to subscribers shall be used only by the subscriber or members of his family, his guests or persons residing with him as members of his household, or by his agent or employees when engaged in his business; and shall not be used in any manner in competition with the business conducted by the Company. The equipment shall not be removed from the subscriber's premises except by an authorized employee of the Company, and shall be surrendered to the Company upon the termination of the subscriber's contract.

Connecting With Other Equipment and Appliances

The equipment furnished by the Telephone Company, shall not be connected with any other equipment and no instrument or appliance shall be connected to it. Telephone instruments have been designed to produce the best results and are necessarily sensitive and intricate. The various devices which are offered for sale, and which are supposed to improve transmission, eliminate noise, destroy germs, or afford other improvements, are not only unnecessary, but generally cause trouble. In order to protect its service the Telephone Company will remove all such appliances.

Right of Access to Premises

At all reasonable times the Company, through its authorized employees, shall have the right of access to the premises of the subscriber to install, inspect or repair the lines or equipment, or to remove them upon termination of the subscriber's right of use.

Allowances for Failure of Service

The Company does not guarantee uninterrupted working of its lines or equipment. For any complete failure of service, however, of more than twenty-four (24) hours duration, of which the Company is promptly notified in writing, a pro rata abatement of the contract charge will be made.

Errors in Directories

The Telephone Company issues directories to assist it in furnishing prompt and convenient service, and it does not guarantee to its subscribers correct listings therein. Every precaution is taken to prevent errors and omissions, but they will occur, and the Company assumes no liability for damages caused to a subscriber by such errors or omissions in its directories. Claims for damages on account of interruption to service due to errors or omissions in directory listings will be limited to a pro rata abatement of the charge for service in accordance with the portion of the subscriber's service affected; and in no event shall such damages exceed in amount one-half the regular rental of the subscriber for the period of time from the issuance of the directory in which such mistake occurred to the date when there is published a new directory containing the proper listing of the subscriber's name.

Change of Number

The Company reserves the right to change the subscriber's telephone number or designation at any time.

Charges for Moves

The subscriber will be required to pay the company's customary charges for any change in the location of his telephone equipment made at his request.

Advance Payments

All bills are due and payable in advance at the Office of the Company.

Outgoing and Incoming Service Privileges

The tariffs and rate schedules of the Company govern and fix the outgoing service of a subscriber and in no manner guarantee to him the same incoming service. All incoming service of a subscriber depends upon and is limited by the right of the calling subscriber to such service.

Default of Payment or Other Breach of Contract

All bills are due when rendered, and are payable at the Company's business office. Failure to receive a bill, however, will not exempt the subscriber from prompt payment as required by his contract. In the event of any default of payment, or other breach of the terms of its service contract, the Company reserves the right to at once discontinue the subscriber's service or disconnect and remove its telephone equipment.
