TO CALL ANOTHER PARTY ON YOUR LINE

To reach another telephone on your line dial the number listed in the directory. Upon completion of the dialing you will hear a distinctive tone (not a busy signal). You should then replace the handset and wait a short interval for the called party to answer. The called telephone will ring.

When the called party answers he will hear this distinctive tone which tells him that someone on his line is calling him and he should remain on the line and wait for the calling party to return to the line. . . . If the called party does not answer in 2 to 4 minutes the ringing will automatically stop.

In order to provide the best service, the equipment will automatically disconnect local conversations at approximately 8 minutes. A warning tone will be heard about one minute before disconnection.
